TO WHOM IT MAY CONCERN

The Peters and Brownes Group wanted to identify a way to efficiently service a complex network of retail outlets of various sizes in the metropolitan and regional areas of Western Australia. We deliver both frozen food and dairy products.

We used the SmartTrans Route Optimisation System and were able to more efficiently serve our existing clients to an extent that we were able reduce our fleet by over 15% and utilise the existing fleet more efficiently. This meant an enormous operational saving to us. The run sheets generated by SmartTrans for each vehicle are more economical and provide more even loads for our drivers.

We have used SmartTrans on numerous occasions to help fine-tune our operations and make savings.

We would be happy to recommend SmartTrans to anyone potential customers

Yours sincerely,

Andrew Kerrich
S.B.U. Manager
Metro Route
Peters and Brownes Group
